**Final Office Action on the Merits**

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 102***

3. **The rejection of claims 1-5 under 35 USC 102(b) over Mookherjee et al. ('098) is maintained.**

Applicant argues that the difference between the present invention and the reference is in the products obtained. Applicant's argument was considered but not persuasive for the following reasons.

The instant claims are drawn to a process of making and not compounds. The steps comprising the process are the essential features for consideration in determining the patentability of the instant invention and not the particular compound/substance obtained by its application. The steps of the process taught by the reference are identical to that recited by the instant claims thus the instant process is encompassed by the reference.

In addition, the ordinary artisan in the art would expect identical process steps utilizing identical reactants under identical reaction condition to result in identical products. Therefore, he would have the reasonable expectation that the two processes would result in identical products.

For these reasons and those given in Paper No. 3, the rejection of claims 1-5 under 35 USC 102(b) over Mookherjee et al. ('098) is maintained.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
